National Meeting Celebrates War Victory Day

Pyongyang, July 27 (KCNA) -- A national meeting was held at the Pyongyang Indoor Stadium on Friday to celebrate the 59th anniversary of the victory of the Korean people in the Fatherland Liberation War. Present there were senior party, state and army officials including Kim Yong Nam, Choe Yong Rim, Choe Ryong Hae and Hyon Yong Chol, officials of party, military, power bodies, public organizations, ministries and national institutions, delegates of war veterans, servicepersons of the Korean People's Army and the Korean People's Internal Security Forces, officials in the fields of science, education, literature and arts, public health and media, meritorious persons, working people in Pyongyang, the chief of the Pyongyang mission of the Anti-Imperialist National Democratic Front and overseas Koreans.

Choe Ryong Hae, member of the Presidium of the Political Bureau of the Central Committee of the Workers' Party of Korea and director of the KPA General Political Bureau, made a report.

The reporter said that July 27 is the day of the second liberation of the country when the army and people of the DPRK beat back the U.S. imperialist aggressors which boasted of being the "strongest" in the world and brought about the shining victory.

The Fatherland Liberation War was a just war for defending the freedom and sovereignty of the country, and the fiercest war...
freedom and sovereignty of the country, and the fiercest war unprecedented in world history of wars, he said, and continued:

The U.S. imperialists plunged into the war its huge aggression forces as well as forces of its 16 satellite countries and the south Korean puppet army, more than two million in all, and employed the most atrocious war methods and means.

But they could not bring to knees the army and people of the DPRK as they were led by Kim Il Sung, ever-victorious and iron-willed commander and gifted strategist.

The DPRK could defeat the formidable U.S. imperialists and their followers in the war because it had the Juche-oriented military ideas and outstanding strategy and tactics of Kim Il Sung and the indomitable fighting spirit of the army and people who upheld his leadership.

During the war, fraternal Chinese people and other world peace-loving people rendered active support and encouragement to the Koreans in their just sacred war.

Admirable sons and daughters of the Chinese people volunteered to the Korean front under the banner of resisting America and aiding Korea, safeguarding the home and defending the motherland. They shared weal and woe in the same trench with the army and people of the DPRK, thus setting a noble example of internationalism in the struggle against common enemy.

We always remember this.

After the war the acute stand-off with the imperialists went on,

Leader Kim Jong Il pursued the Songun politics in an over-all way and wisely led the nuclear stand-off with the U.S. and defended socialism, thus ushering in the era of fresh victory in the confrontation with the imperialists and the U.S.
The military parade that was held this year to celebrate the Day of the Sun on the initiative of Generalissimo Kim Jong Il was a grand festival of victors that showed the military and technological superiority is no longer monopoly of the imperialists and gone never to return are the days when the U.S. threatened and blackmailed the DPRK with nuclear weapons.

Calling Supreme Commander Kim Jong Un's leadership a lifeline of the People's Army and banner of all victories, the reporter continued:

From his early years the dear respected Kim Jong Un was together with Kim Jong Il in his long journey of Songun leadership and made remarkable contributions to strengthening the KPA into reliable scout forces and core forces supporting the Songun revolution, and demonstrating the country's might as a world-level military power.

The army and people of the DPRK are fully demonstrating the fighting spirit of annihilating enemies with fixed conviction that victories will be in store for them as long as they advance under the leadership of Kim Jong Un who is possessed of offensive temperament of Mt. Paektu, outstanding commanding arts and iron luck and will.

Nearly six decades have passed since fireworks were displayed to celebrate the victory in the war but peace has not yet settled on this land and the situation still remains tense.

The U.S. imperialists remain unchanged in their aggression nature to stifle the DPRK by force and occupy the whole of the Korean Peninsula.

The army and people of the DPRK do not want war but are never afraid of it.

The U.S. and its followers are gravely mistaken if they think they can throw a light into the DPRK and duplicitous that is a stone to sink the DPRK.
survive and their bases will be safe while working out scenario for war.

If the U.S. imperialists ignite a new war on this land, the party will believe in the people and the people in the party and they will wage an all-people war to make the enemies sign the document of surrender, not armistice agreement and thus achieve the nation's cherished desire for reunification.

**DPRK People Celebrate July 27 as 2nd Liberation Day**

Pyongyang, July 28 (KCNA) -- July 27 is the day when the Democratic People's Republic of Korea defeated the U.S. imperialists, who boasted of being the strongest in the world, in the Korean War (June 1950-July 1953). Every year the DPRK people celebrate this historic day as the war victory day or 2nd liberation day.

But it was recorded as a tragic, humiliation day for the U.S. and the south Korean regime.

At that time the U.S. imperialists vouched that they would conclude the Korean War in 72 hours, describing it as "one of the blessings". However, the war ended after three years with their defeat.

In October 1950 MacArthur, commander of the U.S. forces in the Far East, called at the Company F of the 5th Cavalry Regiment of the U.S. army. When he demanded that those who landed in Korea ninety-six
days ago come out of the ranks, there were only five persons alive, three of them wounded. 99 percent of the company had already gone to Heavens in the war.

Japanese book "The U.S. Was Defeated" wrote that the causality rate of the UN forces in the Korean War is 40-60 percent, higher than that of the U.S. forces (7.5 %) or that of the German troops (55.8 %) in the Second World War.

Some days ahead of the signing of the Armistice Agreement, the chief U.S. negotiator said at the talks that the U.S. side could not but say "yes" to the DPRK side's every demand.

59 minutes after the conclusion of the AA, U.S. President D. Eisenhower said on radio that this was a tragic and bitter thing.

Meanwhile the south Korean regime deplored that July 27 is a humiliation day.

The credit for the DPRK's victory in the war went to the Juche-based military idea and energetic command of President Kim Il Sung, who always found himself among servicepersons and civilians during the war.

**Victory in Fatherland Liberation War Is Common Victory of DPRK, China**

Pyongyang, July 28 (KCNA) -- The great Fatherland Liberation War is shining with the common victory of the armies and peoples of the DPRK and China. In the three-year war the DPRK and Chinese people wrought a historic miracle of defeating the U.S. imperialists, invaders of 15 countries and the south Korean puppet army.
The Chinese people helped with blood the just war of the Korean people for freedom and independence.

Less than two years old DPRK fought an unprecedentedly hard fight against the U.S. imperialists with more than 100-year-long history of aggression and their allied forces. At that time the Chinese party and government organized volunteers with fine sons and daughters of the Chinese people and dispatched them to the Korean front under the banner of "Resisting America and aiding Korea, safeguarding the home and defending the motherland". The number of the Chinese People's Volunteers amounted to six combined forces, and more than 400,000 young and middle-aged people joined the CPV in Shandong Province alone.

Under the difficult condition just about a year since its foundation, the People's Republic of China sent the CPV to the Korean front. This was a noble manifestation of the revolutionary obligation forged in the anti-imperialist joint struggle.

CPV fighters shared sweets and bitters in the same trenches of the Korean front with the army and people of the DPRK and set a noble example of internationalism in the struggle against the common enemies.

The CPV won the first victory in the battle in Unsan area on October 25, 1950. The day was recorded as the day when the CPV entered the Korean front.

CPV fighters defended the land of the DPRK at the risk of their lives by displaying matchless heroism and self-sacrificing spirit in the same trenches with servicepersons of the Korean People's Army.

They greatly contributed to foiling the strategic attempts of the enemies including summer, autumn, Kumhwa and new offensives. CPV unitswhose fatigue is almost beyond imagination in 1950.
won big victories in battles of great strategic importance in 1950 alone.

The great battles conducted by CPV units in Kaechon area, on the banks of the River Chongchon and on the shore of Lake Jangjin including together with KPA units in November 1950 dealt a total defeat to U.S. First Cavalry Division, U.S. Third Infantry Division, U.S. First Marines Division and south Korean puppet army units. They thwarted the enemies' so-called Christmas general offensive and conducted the third stage operation of the war.

The CPV on the southward advance with the KPA encircled and annihilated Brigade No. 29 of the UK Army in late December, expanded the achievements to the areas south of the 38th parallel. In May 1951 units of Corps No. 20 and Corps No. 27 under the Combined Corps No. 9 of the CPV conducted large-scale attack operation in cooperation with units of Corps No. 3 and Corps No. 5 of the KPA, annihilating a large group including Division No. 3 and Division No. 9 of the south Korean army.

The area of Mt. Maryang which was taken by large units of the U.S. imperialist aggression forces and the UK Army was totally put under control by the CPV in November 1951. The battle for defending Sanggam Pass in Kangwon Province, a strategic vantage ground in those days, vividly showed the noble internationalist spirit and matchless bravery of the CPV.

In October 1952 the U.S. imperialist aggression forces made desperate efforts with four divisions, more than 100 planes, many artillery pieces and tanks to take back the height in the Pass but CPV fighters defended the trench to the last despite showers of bullets and shells.

In this battle Huang Jieguang blocked the enemy's gun muzzle with his body to pave the way for his unit's advance. He said that beloved Korea is not different from his native home and motherland and that though the enemies may take his life, they can not take lives of Korean
brothers and sisters.

In the battle for retaking Mt. Rodok, counter-attack battle in perimeter of Kumsong Stream in Kimhwa Area and many other battles in 1953, CPV units inflicted a heavy loss to the enemies, liberated vast area extending 100 square kilometers and thus shattered the vicious moves of the U.S. imperialists to seek the so-called honorable armistice and contributed to bringing earlier the final victory of the war.

The two years and nine months-long fierce battles on the Korean front produced many heroic battalions, companies and platoons and other collective merited units and hundreds of thousands of heroes, meritorious men and model combatants of the CPV.

The DPRK government awarded the title of DPRK hero, orders and medals to 661,736 CPV fighters. The armies and peoples of the two countries became comrades-in-arms and brothers and sisters sharing joy and sorrow in the days when they waged the rigorous struggle during the anti-Japanese war, the civil war of China and the Korean war.

The DPRK-China friendship sealed in blood in the front of the anti-imperialist class struggle can never be destroyed with anything but will invariably be strengthened generation after generation.

**Songun Is Eternal Banner of Victory: Rodong Sinmun**

Pyongyang, July 28 (KCNA) -- Only day of victory like July 27 will be in store for the Korean people advancing along the path of Songun, holding the Supreme Commander's Colors bearing shining Marshal Star, says Rodong Sinmun Saturday in a bylined article. Songun is a revolutionary mode which had been consistently maintained by President Kim Il Sung in the whole course of leading the Korean revolution, the article says, and goes on:
The victory won by the Korean people in the Fatherland Liberation War was a brilliant one provided by the outstanding military idea, strategy and tactics and extraordinary commanding art of the President, founder of the Songun idea and pioneer of the revolutionary cause of Songun.

Leader Kim Jong Il, who successfully carried forward the Juche-oriented revolutionary cause of Songun pioneered by the President, pursued the excellent Songun politics, making sure that the Korean people demonstrated their dignity to the world as invincible people who celebrate v-days through generations.

It is thanks to the Songun politics that the peace on the Korean Peninsula and the nation's security are guaranteed. This has already been proved in practice.

The history of victory is eternal as long as there is the great Songun politics. The Songun politics pursued by the Workers' Party of Korea serve as the most powerful political mode which gives a sure guarantee for reliably defending the sovereignty and dignity of the country and the nation and ensuring the peace and stability in the Peninsula.

No precision guided weapons of the U.S. imperialists and south Korean warmongers and their preemptive attack can ever overpower the DPRK's war deterrent. The DPRK has now the Korean People's Army which has grown to be strong revolutionary army of Mt. Paektu under the care of peerlessly great persons, the unbreakable single-minded unity of the army and people and the powerful defence industry capable of manufacturing any ultra-modern weapons and military and technical equipment by its own efforts.

The army and people of the DPRK have covered the glorious path of victory, weathering tempests and creating the miracles of history under the uplifted banner of Songun. They will as ever resolutely frustrate the
reckless war moves of the U.S. imperialists and south Korean war-like forces for invading the DPRK and pave a broad way for carving out the nation's independent destiny by dint of Songun.

**Kim Il Sung's Feats Performed for War Victory Praised Abroad**

Pyongyang, July 30 (KCNA) -- Lectures and film shows took place in Democratic Congo, Tanzania and India on July 21 and 23 to mark the 59th anniversary of the victory of the Korean people in the Fatherland Liberation War.

On display in the venues of the events were works of President Kim Il Sung and leader Kim Jong Il and photos of their undying exploits.

Korean films including "Fireworks for a Thriving Nation" were shown at the events.
The chairman of the Youth Group for the Study of the Juche Idea in Democratic Congo referred to the fact that the DPRK achieved a shining victory in the 3-year Fatherland Liberation War fought to beat back the U.S. imperialists' invasion.

It was not easy for the young DPRK to win victory in the war ignited by the U.S., he said, and went on:

Thanks to the outstanding strategy and tactics and wise leadership of Generalissimo Kim Il Sung, the army and people of the DPRK inflicted upon the U.S. a heavy defeat, the first of its kind in its history.

Clark, the then commander of the UN Command, confessed that the victory of the Korean People's Army was ascribable to the superb commanding art of General Kim Il Sung.

The chairman of the Indian Society for the Study of Works of Kim Jong Il said that President Kim Il Sung shattered the myth of the U.S. imperialists' "mightiness" in the Korean War and worked a military miracle unprecedented in human history of wars. Under the supreme leader Kim Jong Un who is identical to Kim Il Sung the DPRK will always emerge victorious, he added.

**Miracles Wrought by DPRK People in Korean War**

Pyongyang, July 31 (KCNA) -- The army and people of the Democratic People's Republic of Korea wrought a miracle of history by winning in the Korean War (June 1950-July 1953). The Korean War was launched by the U.S. imperialists' surprise invasion of the two-year-old DPRK. But the DPRK rapidly went over to counterattack to liberate Seoul, the enemy's stronghold, three days after the outbreak of the war and more than 90 percent of the whole
areas of south Korea in a matter of one month.

With only four torpedo boats seamen of the Korean People's Army sank the U.S. heavy cruiser Baltimore and a light cruiser in the sea off Jumunjin in early July Juche 39 (1950).

From September 13 to 15 in 1950 a KPA coastal artillery company on Wolmi Island heroically fought with only four guns against the 50 000-strong U.S. forces aboard several hundred warships, supported by more than 1 000 planes, thus delaying their landing on Inchon for three days.

The KPA soldiers defended the Height 1211 to the last in face of the enemy's "wave attacks" supported by 30 000 to 40 000 bombs and shells a day. They also seized in 15 minutes the Height 351, which was allegedly turned into a strong fortress for two odd years.

After all, the U.S. suffered a bitter defeat in the Korean War, the first ever in its several hundred-year-long history of wars.

Under the guidance of Generalissimo Kim Il Sung, an ever-victorious and iron-willed commander, the Korean people overpowered the U.S. imperialists' numerical and technical superiority with their ideological and tactical might to win a great victory in the war, known to be a miracle in the 20th century.
